EXPERIENCE

Internship Role: Full-Stack Developer SSL Logistics Co., Ltd.   November 4, 2024 – March 14, 2025

- As a Full-Stack Developer intern, I was responsible for the Front-End development of a Dealer Web project focused on management solutions. I used Next.js for front-end development, ShadCN for UI components, and Zustand for efficient state management. I collaborated with the UX/UI team to design and enhance the user experience, ensuring the interface was responsive, intuitive, and user-friendly.
- In addition, I contributed to improving SEO to enhance search engine visibility and website accessibility. I also participated in refactoring code to improve code quality, restructure the project, and ensure better maintainability in the future. Furthermore, I integrated various features to meet client needs and optimized the performance of the application.

IoT Smart Mushroom Farm Installation Klong Pak Lak Community   June 24, 2024

- Implemented an IoT Smart Mushroom Farm system for the Klong Pak Lak community as a part of my Bachelor's degree project. Developed the system using Arduino ESP32 and Sensor SHT45 to control various devices within the farm.
- Data from the sensors is transmitted to a custom-built website, integrated with LINE LIFF.
